DANVILLE:

FRIDAY ... APRIL 8, 1864. A CONSERVATIVE UNION MEET-

Will be held at the Court-house in Danville, on Monday, April 18, 1864 (it being County Court day,) for the purpose of appointing Delegates to attend the Union State Convention, at Louisville, on the 25th day of May, next. Called by the Central Committee of the Union Democratic Party. All are requested to attend, who are for the "Union, the Conetitution, and the Enforcement of the Laws," and against the Baltimore Convention, now and forever.

Danville, Ky., April 8, 1864, 2t.

REPORTED INVASION .- On Sunday last, rumors were current on our streets of the invasion of the north eastern portion of the State by a formidable rebel force. The statement was made that Mt. Sterling had been occupied, &c. The whole thing was false, and we understand there was no foundation whatever for the

Many portions of the State, unprotected are infested with bands of roving guerrillas, who make sudden dashes into denly disappear. There seems to be no concert of action among these several bands, but all of them seem to be acting on their own responsibility.

It seems to be generally understood that a raid will be attempted by the rebels during the present spring. All the information we can gather from rebel sources would lead us to make the statement. However, there is a considerable military force in the State, and the troops are being rapidly concentrated, and we anticipate that the rebel advance will be warmly received.

There is a controversy going on between the Louisville Journal, Frankfort Commonwealth, and Cincinnati Gazette, in which the latter journal makes the statement that Gov. Bramlette had prepared a proclamation "invoking resistance to the enrolment of the blacks," &c., previous to the conciliatory one that was put forth. The Kentucky journals deny the statement most emphatically. At the meeting held in Danville, on 21st March, Rev. Dr. R. J. Breckinridge made publie the fact that he was called to Frankthe enrolment of the slaves; that he heard Martia the declaration made by the officer in command of the department of Kentucky that it was his intention to enforce the matter, if necessary; and that he had a sufficient force at his command to accomplish the object. Dr. B. also stated that a different proclamation to the one issued had been prepared, the nature of which was in conformity with the statement made by the Gazette, but that it had been suppressed.

meeting of the 21st ultimo.

Lieutenant Governor Jacob and Col. Frank Wolford addressed a large audience of the citizens of Fayette county, in Lexington, on Saturday last. The Observer reports that Col. Jacob's speech was a bold and manly vindication of the position of the true not the pretended Un. market for subscriptions, are bonds issued ion men of Kentucky - of those who do by the Government which have ten years not believe that Mr. Lincoln has any more to run absolutely, after which time, with letter from the Army of the Potomac right to destroy the Constitution than in thirty years, the Government has the says the rebels for past two days have Jeff. Davis has, and who are not at all option of redeeming them at its pleasure, been busily engaged in digging rifle-pits disturbed at the epithet "Copperhead" The law providing for these bonds au- along the South side of the Rapidan, in fair. proceeding from those who have become abolitionized, and who are bending the them. At present \$200,000,000 are of- asserted by deserters that they are tearpregnant hinges of the knee to power that thrift may follow. His eulogy of est payable semi-annually on the \$100 burg and Hanover Junction. Gen. McClellan was glowing, elequent, and \$50 bonds. The bonds are exempt truthful, and whenever his name was pronounced it was received with a shout of applause from the large audience, that showed unmistakably the deep hold which that noble patriot and soldier has upon the hearts of the people.

At the conclusion of Col, Jacob's speech, Col. Wolford was called to the stand, and themselves every day. It is thought that spoke for an hour. He stated that he the entire one hundred cannot escape returned to Kentucky "dishonorably discharged" the service by the President for an alledged violation of the "Fifth Article of War." He most emphatically denied that he had violated said article and stood prepared to make good every word he had ever uttered before any tribunal that might be selected. He stated that he was out of the service, but that if he was denied the privilege of fighting for his country in one place he could in another. Col. W. also paid a noble tribute to Gen. McClellan, whom he pronounced the "great McClellan," and predicted that his election to the Presidency was as sure as the decrees of fate.

We learn that these distinguished Kentuckians also spoke to large audiences at Paris, on Monday, and Versailles,

General Meade denies that he issued an order to retreat from Gettysburg on the 2d of July. It was written by General Butterfield, without orders.

The War News.

We have no startling army movements to record the present week.

Forrest was at Jackson, Tennessee, at have a considerable force at Grand June-Grierson's cavalry are harrassing Forrest's southward march, but are unable to operate with the desired effect through the absence of many of the veterans at the North. It is hoped, however, that they may beable to prevent McCullough, who is on his way north, to re-enforce

The Red River expedition is moving on prosperously. Three hundred prisoners have arrived at New Orleans. The 33d Ohio was in the advance of Bank's forces, and reached Alexandria on the 14th, marching 170 miles in five days. The latter place was captured by the Federal forces without any serious opposition. The white citizens and male blacks have gone to Texas.

The gunboat Bragg has established the blockade at the mouth of Red river, and none but Government steamers are permitted to enter that stream.

Advices from Harrisburg state viously been published.

The War Operations of the Year.

Journal, April 2.] The year thus far has seen less action in our armies than the first quarter of any of the foregoing years of the war. This may be partially owing to the fact that the field of activity is now more limited than formerly, that the torces of both beligerents are better concentrated, and, above all, to the fact that the valuelessness of small, desultory and indecisive actions are better understood now than ever before. The two main armies of the rebels are, each of them, composed of stupendous masses of men, and the principal nor armies act as co-operating forces with the main bodies, instead of independent expeditionary columns, as formerly A large number of our battles and fights in other times were the result simply of the enterprise of one or other of the nunerous commanders of separate departments and armies, and had but little bearng upon the fundamental operations or the grand issue of the war, General Banks might fight in the valley, General Fremout in the mountains, General Burnside near the seaboard, and half a dozen other Generals in tide-water Virginia, without any direct bearing upon the work of the Army of the Potomac, and without any co-operation or unity of purpose. there were battles in Missouri, Arkansas, Kentucky, and Tennessee, which apparently had no other aim, and certainly had no other effect, than to show that our soldiers would fight with heroic spir t whenever there was a foe to confront them. Latterly circumstances have made such affairs of rare occurrence, and now it is almost impossible that they should ever again take place. We have now a single military head of all our forces, who, it is understood, freely controls one and both of our great armies, together with making a virtual addition of nearly that all detached military bodies, and who will so operate the whole as to unify their purpose and produce a comprehensive harmony of action. Now, for the first time, is the greatest effort of the nation's army possible, and now, fortunately, we have both of our great armies planted in posi tions where a victory for either of them, worthy of the name, must be largely decisive of the fate of the Southern Confed contrast between the campaign in which ericy. We have a superb position at he was allowed to judge for himself, and Chattanooga; and a victory over Joe the campaigns in which he was managed Johnston-though as yet we are hardly by the politicians surrounding the Presprepared to take advantage of it-a vic dent .- Journal of Commerce tory such as some of General Grant's previous triumphs, and achieved at the proper moment, would carry our Western ar my to Atlanta, if not indeed to Augusta, and would make valueless all further rebel struggles west of the line of the Savanuah River. So, again, a victory over Lee's army would now be a much more disastrous matter to the Confederacy than it would have been at any previous time; and that mainly because the productive capacity of the South, as regards men, is now exhausted. Were the Lieutenant General to break Lee's army as he broke Bragg's at Chattanooga, it would never be itself again. It might reform one more, it is true, on the south bank of the James, or the Roanoke. And, almost to a surety, it would. For it would be an demolished by one blow, however great.

in the rebel Congress and by the astound ing conscription measures adopted in that body, and every where rigidly enforced. It is now nine months since the Army of the Potomac fought a general battle, It is seven months since the Western army marched into Chattanooga, and the last battle for the possession of that stronghold was fought in November. Both armies have done some good work since then, but it has been fruitless. Both of them are now stronger than at the time of their last trial and triumph; and we judge that one of the two rebel armiesthat under Lee-is stronger than it has been any time since its last encounter, The season when the year's campaign must necessarily open is rapidly approaching, and there is all likelihood that it will be a very decisive one for the enemy. It is well that the energies of our army and the lives of our men have not been wastly of raising a million of dollars at their ed of late in small desultory and unprofitable efforts.

But its thinned and reeling columns could

never more stand full and strong as now,

not begin to fail. We take it that it is

conclusively proved that the whole able-

bodied population of the South is now it

that section, but is shown by the debates

Nowbern, N. C., advices of a late date, mention that a great commotion was caused among the rebel troops in that region when Richmond was menaced by General Kilpatrick. Pickett, the rebel General, sent off several of his regiments in great haste to defend the regiments are now reported to be coming back. In one of his recent speeches Gov. Vance urges the importance of the North Carolina railroads to the preservation of Lee's army, and says should they be destroyed the troops could not remain in Virginia forty-eight hours. The Wilmington Journal has an article on the success of blockade-running, which it was 5.592, and since the first of last No- fortifies with statistics showing that only one out of the twenty blockade-runners have been captured. An experienced rebel naval officer is reported to have said that, owing to the peculiar situation of for sale. Connected with the Dwelling-hou bracing an area of thirty miles, all the vessels of the United States Navy would Parksville, or W. B. Edelen, Danville. be insufficient to prevent the illicit trade.

Private advices from Little Rock, says General Steele's forces, 15,000 strong, left that place for the South on the 23d. are being cleared and cleansed. All the They will unite with troops from Fort Smith, at some point in the South-western part of the State.

> The Washington correspondent of the World says Forrest's raid was planned in the North, and that the supand Cincinnati were ordered to Puducah for the express purpose of being captur-

INTERFERENCE. - There are two re- GO TO markable facts brought to light by the publication of General McClellan's Report. The first is, that the Western Virginia campaign, in which General McClellan achieved such perfect success, was undertaken, carried forward, and finished by him without any orders of any kind whatever from Washington. No one in that city seemed to have the elightest concern in the campaign; no one even ordered him to undertake it: but the General, acting on his own responsibility, went to Western Virginia, and on his own plans drove out, captured, or destroyed one and another of the rebelarmies until he had rescued the whole district. The other fact is, that to which we have before alluded, that the great campaign in Maryland, resulting in the victory at Antietam, was undertaken by General McClellan on his own responsi bility, conducted by him without orders or interference from Washington, and resulted in complete success and glorious victory. The contrast between these two campaigns and the Peninsula compaign, in this respect, cannot fail to be French and English Porcelain. noticed. In the latter interference was constant and persistent. Not only was the army reduced one-third, but after it was reduced the movements of General McClellan were constantly hampered and obstructed by orders from Washington The most minute details of his march were sometimes directed by the "commander-in-chief" in the White House. The President even tells him to look well to the effect of the Chickahominy on his position! And McClellan replies, with his unvarying courteous respect for the President, that the latter may rest assured he will not overlook a stream which has already given the army so much occupation! "Stretch your right wing to the north of Richmond," orders the Secretary of War. Why don't you destroy that railroad? is the constant omplaining demand of the President. There was apparently no moment, from the time he left Washington till Halleck ordered him back, that Gen. McClellan had permission to exercise his judgment or dispose of the Army of the Potemac according to his views as to what was best. It is curious and instructive to draw this

The Ohio Legislature has appropriated one million dollars to fortify the State against invasion; also instructing Ohio Congressmen to vote in favor of the abolition of slavery every where by an amendment to the Constitution.

LOCAL AND PERSONAL.

Terms .-- The TRIBUNE is furnished To clubs of five subscribers, \$10-and come copy to the getter up of the club.

We are under obligations to Hons. L. W. POWELL and A. HARDING for continued Congressional favors.

THE MUNICIPAL ELECTION on Saturday last passed off without any excitement whatever. The following gentlemen were elected to serve as Town Trustees for the ensuing municipal year:

School Trustees for the Town District-Dr. Jos. Smith, Geo. W. Welsh, and G. W. Collins. For Police Judge, Thos. P.

School Trustees will wake an earnest of ? fort to build up a Common School for the Town that will do some good. We understand that the fund is sufficient to secure us a permanent school and the employment of competent and faithful teachers. The number of children in our town who are now receiving a street education exclusively, is becoming an alarming evil, for the simple reason that the parents of quite a number of them are so situated that they cannot afford to send their children to other schools. It is a well-known fact also, that there are not a sufficient number of schools to accommodate them, even if they could do so. We are satisfied that the gentlemen who compose the Board will do all in their power to remedy the evil, and give us a school that will be a credit to the town and an advantage to the youth of the community.

Company C, 11th Michigan Cavalry, Capt. EDWIN C. MILES, commanding, that has been stationed in our town for several weeks as Provost Guards, left yesterday, with orders to report at Camp Nelson. The officers and soldiers of this company have conducted themselves with propriety since they have been in plaint urged against them.

PETERSON'S MAGAZINE for May is on our table. The present number is equal to its predecessors in all points of attraction. Ladies, we respectully commend this excellent magazine to your consider-ation. You will find it equal to the best and surpassed by none.

GARST desires us to announce that he peared every inhabitant should adopt at will leave in a week or two for the City so that if the enemy approaches the citof New York, and all those who may de- adel he will find it too well fortified for sire fine steel engravings of any of the admission. Spotted Fever.

found almost a matter of impossibility to bring it under the control of medical treatment. Any suggestions in regard to its nature and treatment should be brought to light through the public journals; therefore we give place to the to single subscribers at Two Dollars fellowing article from the Louisville MOORS, present Deputy Sheriff of Boyle county, a candidate for the Sheriffalty at the ensu-

"I propose to offer a few suggestions on the nature and treatment of a malignant disease, which is known by the above name, in some sections of this and adjoining States. It has thus far been attended with a fatality which (in proportion to the number of victims seized) has only been equaled during the first visitation of the cholera scourge to this country. A well-founded terror and gloom pervades the communities in which this formidable plague has made its advent, especially in the Wabash and R. W. Washington, D. Crozer, Jas. Green river valleys, where it has proved Garrett, Jos. MeJames, Saml. Larimer, almost uniformly fatal. I have selected S. W. Cloyd, and E. B. Russell. For your journal, Messrs. Editors, as a mediaged 33 years. um for giving publicity to a few plain, Young was re-elected without opposition. for a regular thesis) would not subserve death universally regreted. An honest and up-We carnestly true that the Board of my purpose, I desire to circulate, as right man. knowledge of the means which I consci- to this office. entiously believe will rob this hitherto frightful malady of many of its terrors.

Much difference of opinion prevails among professionals in regard to what in medical parlance is called the "diagnosis" of this disease. The want of success in its management is no doubt to be attributed to this diversity of opinion. It is called in some places "Cerebro spinal-Menengetis," a formidable term, which means an affection of the membranes of the brain and spinal cord Spotted Fever," "Congestion of the brain," "Maliguant Typhus," &c., are among the appellations it has received, according to

the peculiar views of practitioners. I hope I may not incur the charge of a violation of any rule of medical ethics, or of offensive dogmatism, in the brief declaration that the disease in question is simply a more than ordinarily malignant type of the old malarious disease. well known in the South and West under the name of "Congestive Chills."

la my opinion the modifications and rapid fatality which attend this new phase of the eld complaint when not met by prompt and judicious means of resistance, arise from a peculiar tendency disposed to lend us the helping hand will to congestion of the source of vitality in human organism-the brain and its ap-

CELEBRATED STOMACH

BITTERS. A pure and powerful Tonic, corrective and alterative of wonderful efficacy in disease of the Stomach, Liver and Bowels. Cures Dyspepsia, Liver Complaint, Headache General Debility, Nervousness, Depression

of Spirits, Constipation, Colic, Inter-mittent Fevers, Cramps, and Spasms, and all Complaints of either Sex, arising from Bodily Weakness whether inherant in the system or pro-duced by special causes.

Norming that is not wholesome, genial and restorative in its nature enters into the compo-sition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no

It is well to be forearmed against disease, and, so far as the human system can be protect ed by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes, HOSTETTER'S BITTERS may be relied on as a safeguard. In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy and thousands who resort to it under apprehension of an attack, es-sort to it under apprehension of an attack, es-cape the scourge; and thousands who neglect to causes a frequent desire and gives strength to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to health within a few days by the restored to he wired in a short time, have of HOSTETTER'S BITTERS.

GESTION. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Construction superinduced

Pedigree and Description, GREAT WESTERN was sired by Buena Vista, the largest son of Imported Mammot h; his dam was a fine large Jennet of the Hick.

GREAT WESTERN is a jet black, with mealy nose, 16 hands 2 inches high, 9 years old in June next. In point of size, form, bone, muscle and color, he is surpassed by no Jack in Kentucky. He took the premiums in the fall of 1858 at Danville, Springfield, and Sal visa: I have not shown him since. I invite all his colts before breeding elsewhere, as I think him one of the finest, large breeders in Kentucky. His colts can be seen in Boyle, Marion, Lincoln, Washington, Mercer, Barren, Hart, Garrard, Jessamine, Franklin, Nelson, Shelby, and Jefferson. His dam grand dam, sire and grand sire were all black; he possesses not a drop of gray stock in his veins, so far as known. As to his size, no stock in America can beat him. His sire, Buene Vista, took the cup in 1854, at Lexington, Paris, Eminence, and Louisville, beating and backing out all the best
